

BNP MEDIA AND THE CE CENTER ARE PROUD
TO ANNOUNCE THE ALL NEW

Code Corner

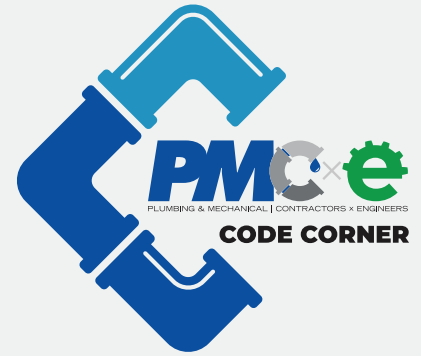

To help professionals navigate code changes, energy updates, and IRA incentives, BNP Media's Plumbing Group has launched the Plumbing & Mechanical Code Corner (PMCC) on the CE Center.

The PMCxE Code Corner covers the latest codes, technologies, and educational content in the Plumbing, Piping, and Mechanical industries, helping registered users meet CEU requirements - no fees or subscriptions!

The first topic, Heat Pump Water Heater (HPWH) technology, includes content from the DOE on benefits, installation, performance, and available incentives.

Partner and learn with the #1 industry educational portal. Create your own account and keep track of your continuing education credits every year!

Visit the New Code Corner and expand your expertise at:
<https://engineeringcenter.bnpmmedia.com/academies>

**NEW
FREE CEU &
Learning
Opportunities!**

Initial Topics and content within the **Plumbing Code Corner** site will include:

- » Heat Pump Water Heaters
- » Geothermal Options
- » Water Heating Series
- » Radiant & Hydronics
- » ADA and Plumbing
- » Water Quality/Safety/Conservation

CODE CORNER ACADEMY

The **PMCxE Code Corner** exclusive platform includes the latest codes and information from the DOE, the established Code body organizations, and Manufacturers direct content presenting you with the latest information across multiple methods of learning including:

- » CE editorial 60 minute webinars focusing on the topics, technologies, and codes to advance your expertise.
- » Custom CE articles and curated content on your desired topics
- » Additional educational content (approved by editors and CE team) posted on the Manufacturer's Academy sections
- » Access and Credit Tracker to your own Code Corner and Academy/Library content

Content will be updated and added on a consistent basis. Feedback is always welcomed!
